A NEW WAVE IDENTITY

GroundSwell

Built to move people.

BRAND. SOCIAL. DIGITAL.

Momentum made visible.

THE ORGANIZING IDEA

Momentum made visible.

A groundswell begins below the surface and builds into something people can feel. The identity turns that build into a visual language: connected currents, generous space, and a clear upward lift.

POSITIONING

GroundSwell brings brand, content, websites, and growth marketing into one connected system for small businesses.

BRAND ARCHITECTURE

New Wave IT

Parent brand

GroundSwell

Brand. Social. Digital.

The proposed new name for New Wave's existing Social Engineering growth division.

Use the endorsed lockup in first introductions, proposals, and partnership materials. Use the primary logo wherever GroundSwell is already understood.

ONE IDENTITY, SEVERAL FITS

A consistent first impression.

Choose the exported artwork for each background. Preserve its spacing and proportions.

A CONNECTION YOU CAN SEE

Our initials. Our current.

HERITAGE WAVE

Original New Wave division mark.

GroundSwell

THE GS MONOGRAM

Bold G and S initials are joined by the exact upper crest from New Wave: Social Engineering. A transparent cut keeps the cyan current distinct as it passes through both letters.

THE WORDMARK

GroundSwell is custom-set in Plus Jakarta Sans with fixed spacing and capitalization. The capital G and S make the name easy to scan. The exported vector artwork is the master.

Capital G. Capital S. One word.

GIVE THE IDENTITY ROOM

Keep the current clear.

Minimum clear space: x = half the visible GS symbol height. Keep this space around every complete logo.

PRINT

Start at 38 mm wide for the primary logo and 58 mm for the endorsed lockup. Check a proof at final size; stock, ink, and production method change fine-detail reproduction.

DIGITAL MINIMUMS

Primary logo	220 px wide
Endorsed logo	300 px wide
Standard GS monogram	32 px wide minimum
Compact GS monogram	24-32 px wide
Micro GS / solid	16 px wide

At tiny sizes, use the supplied micro GS. Use the standalone monogram for avatars and favicons; keep the full wordmark for larger placements.

THE MOTION LANGUAGE

Build the swell.

The inherited New Wave upper wave scales into a rising contour field. The same current cuts through GS, linking the monogram, motion, and backgrounds without redrawing the source curve.

01 **Scale uniformly.**
Keep both axes equal. The source curve stays intact.

02 **Let space build.**
Use controlled echoes and one clear focal point.

03 **Keep text quiet.**
Place copy in a clear area, away from busy crossings.

DECORATIVE FIELDS MAY CROP AT THE EDGE. LOGOS MAY NOT.

OCEAN DEPTH. VISIBLE ENERGY.

A palette that carries momentum.

RECOMMENDED TEXT PAIRS / CONTRAST RATIO

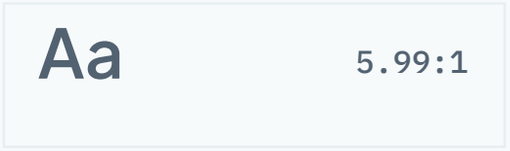

Cloud on Deep Current

Deep Current on Cyan

Deep Current on Amber

Slate on Cloud

Ratios calculated from the sRGB values above. All four pairs meet 4.5:1 for normal text.

CHARACTER IN THE HEADLINE. CLARITY EVERYWHERE.

Type with a clear job.

Aa

PLUS JAKARTA SANS

Headlines and the logo foundation. Use 600-800 weights with tight, deliberate spacing.

These are existing open-source typefaces. The GroundSwell wordmark is a custom-set logo, not a new font family. Use the supplied artwork for the logo.

Built to move people.

Headline / 40-64 px / 1.08-1.15 line height

A connected system for growth.

Inter gives service details, proposals, and digital experiences a direct, readable voice. Start body copy at 16-18 px with a 1.5 line height.

Inter / 400-600

01 / MOMENTUM / 2026

IBM Plex Mono / labels, data, navigation details

A SHARED VISUAL RHYTHM

Twelve tools. One language.

Strategy

Web Design

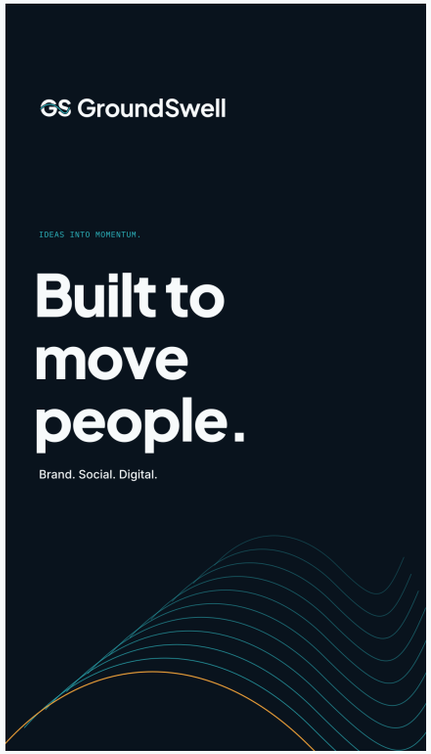

Use the individual SVGs at 24-48 px or larger. Keep stroke weight, rounded ends, and accent placement consistent. Icons support a label; the logo identifies the company.

A SYSTEM THAT TRAVELS

Recognizable at every ratio.

SQUARE / 1:1

STORY / 9:16

COMPOSITION RULES

01 **One clear message.**

Lead with a short, useful statement. Let the logo anchor the layout.

02 **Keep the focal point safe.**

Keep essential content away from outer edges and interface overlays.

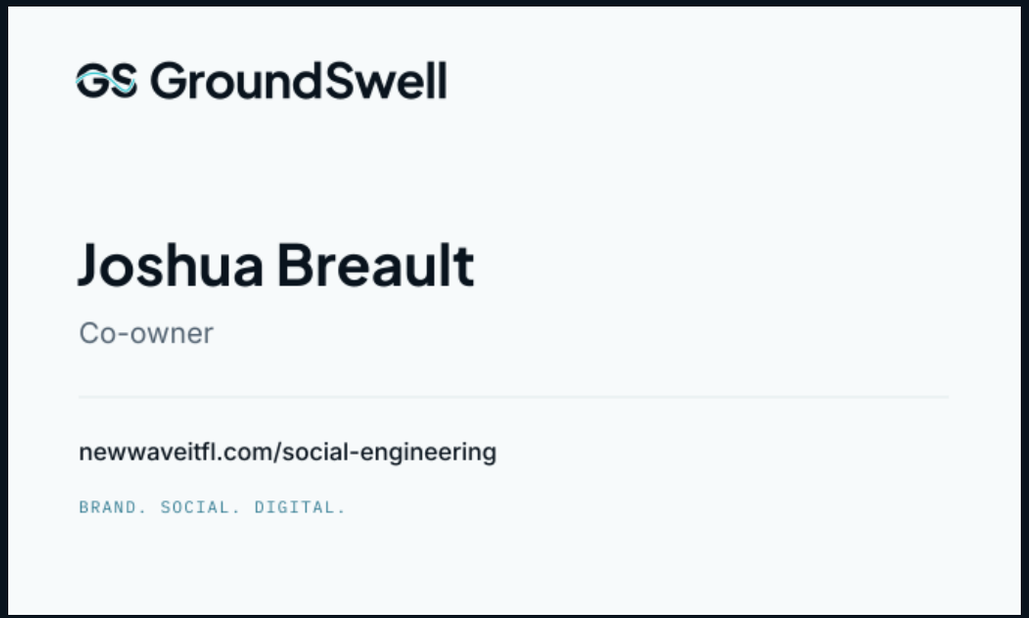

03 **Use a repeatable system.**

Carry the same type, color balance, and swell motif across formats.

The supplied templates are starting layouts. Replace the message, retain the hierarchy, and use the supplied logo files.

FROM FIRST IMPRESSION TO EVERYDAY WORK

Make the system useful.

BUSINESS CARD / FRONT

BUSINESS CARD / REVERSE

Proposals, decks, invoices, and email share the same essentials: a deliberate headline, readable body type, restrained color, and the supplied logo.

The card uses the existing division URL. Add any other contact details only after approval. Use the endorsed logo for formal introductions.

USEFUL WORDS. CLEAR INTENT.

Sound like a capable partner.

BRAND LINE

Built to move people.

DESCRIPTOR

Brand. Social. Digital.

READY-TO-USE BIO

Brand, social, and digital, working together. GroundSwell brings clear ideas and connected execution to your next stage of growth. By New Wave.

VOICE PRINCIPLES

Confident

Say what the work does. Make the next step easy to understand.

Specific

Name the audience, task, channel, or outcome. Replace empty hype with detail.

Human

Use direct language. Write like a thoughtful person, with energy and restraint.

Suggested call to action: Start a conversation.

THE HANDOFF STANDARD

Use the right file for the job.

SVG	Master artwork	Use the GS lockup or monogram as the primary identity. Keep the original wave as a heritage graphic. Outlined shapes stay editable.
PNG	Transparent export	Presentations, social publishing, documents, and quick placement. Preserve the original aspect ratio.
PDF	Sharing and review	The guide communicates usage rules. Production artwork stays in the source logo and template folders.
TTF / WOFF2	Desktop and web type	Install the TTF files for design tools. Use WOFF2 and the supplied CSS for web implementation.

Avoid stretching, recoloring individual strokes, adding shadows, outlining the wordmark, or placing the full logo over busy imagery. For print, confirm bleed, color conversion, and final proof with the producer.

EVERYTHING HAS A PLACE

Ready for the next application.
